

# TECHNOLOGY CONDITIONS SURVEYS (TCS)

Archi-Technology's TCS services examine school district buildings to objectively assess current technology conditions, make recommended improvements, and estimate the rough cost of the improvements.

**Technology Conditions Surveys conducted, 2015 – 2020**

# 21

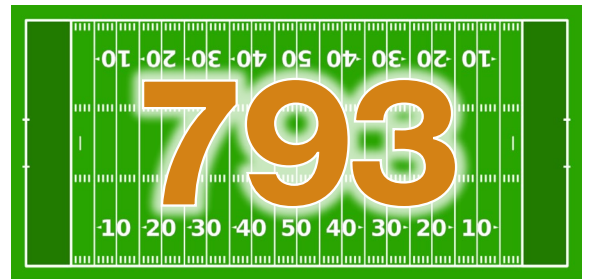

*Provided to upstate NY school districts from the Mohawk Valley to Lake Erie.*

**Total Interior Space Sq. Ft. surveyed**

# 14,300,000

*That's more than **793** football fields... or **3+ times** the size of Boeing's Everett Factory, the world's largest building.*

**Total Full-Time Students effected**

# 56,900

*That's about the entire full-time student enrollment of Boston City School District (MA).*

**Total Recommended Improvement Costs**

# \$66,000,000

*That would buy you about 6.6 million feet of Cat6 cable at today's price.*
